MATTER
Anything possessing mass and occupying volume
PURE SUBSTANCES
Uniform, constant chemical compositio
MIXTURES
Physical combination of two or more substances
Simple Substance
(Elements)
Single atomic speci
Ex: Fe, Cu, O2, N2,
Compound Substance
(Compounds)
Fixed stoichiometric rat
Ex: H2O, NaCl, CO2, C6H
Homogeneous
(Solutions)
Single uniform phas
No boundary visibl
Ex: Saline water, Air,
Heterogeneous
Mixtures
Multiple distinct phases
Boundaries visible
Ex: Oil + water, Granular sand
